The icon library displays a grid of 50 icons. The first icon, a house, is selected and highlighted with a blue border and a small blue checkmark in its top right corner. The icons are arranged in a 5x10 grid. The categories of icons include: home, navigation, communication, security, technology, tools, time, and general symbols.

## READY TO DELIVER

An institute of world-renowned experts delivering breakthroughs in neurological and neurodegenerative disorders

[ABOUT THE INSTITUTE](#)

[CURRENT RESEARCH INITIATIVES](#)

[TOUR THE INSTITUTE](#)

## AREAS OF FOCUS

### Parkinson's, Dystonia & Movement Disorders

Even the simplest body movements require communication between the central nervous system, nerves and muscles. If any of these are affected, it can lead to Parkinson's disease, dystonia or another movement disorder.

[Learn More →](#)

### Alzheimer's, Memory, Dementia, and MS

Including Alzheimer's, there are more than 100 types of conditions related to a loss in the brain functions responsible for thinking, some of which are treatable.

[Learn More →](#)

### ALS & Neuromuscular Disorders

ALS affects nerve cells that control voluntary muscle movements. This progressive disease ultimately impacts essential actions such as breathing, eating, moving and speaking.

[Learn More →](#)

### Traumatic Brain Injury

A traumatic brain injury is a violent blow to the head or body by an external force, which causes a disruption in the normal function of the brain.
