Clinical Trials

Together, we work to expand veterinary medical knowledge, improve patient care, and find new or better ways to diagnose, treat, or prevent diseases that affect our pets through clinical research studies.

The UF Veterinary Hospitals are active in discovering new treatments for naturally occurring diseases and developing a better understanding of how the diseases begin along with new ways to prevent diseases from happening. If you are seeking more information about current Clinical Trials, visit our pages to the left or feel free to contact us at (352)392-2235 to be directed to a clinical trial that may suit your pet's needs.

BUTTON BLOCK

DETAILS

- New block in Apollo 2
- Available now (released last month)
- Can be used inline with content
- 3 colors: Blue, Orange, and Gray
- Supports the new Icon Library

NEW BLOCK

INLINE ALERTS

packet from the [UF](#) Graduate School.

We encourage you to apply at least one to two months before the registration deadline for the semester in which you would like to begin the program. (Please allow longer for international students).

You can check the completion status of your [UF](#) application on the [UF Admissions](#) website

Semester Application Deadlines

- Spring semester: November 1st
- Summer C semester: March 1st
- Fall semester: July 1st

INTERNATIONAL APPLICANTS: Please submit applications 30-days prior to posted deadlines to insure time to properly process your application.

Minimum Admission Criteria for Degree Seeking Students

Acceptance into the graduate degree programs is competitive and meeting the minimum requirements does not guarantee acceptance.

Minimum requirements for acceptance to the College of Veterinary Medicine's Graduate Studies Program include (individual departments might have higher criteria):

GPA: 3.0 or above, with particular attention paid to the grades in upper division science and math courses (usually taken in the last 60 hours)

MORE INFORMATION 

Bachelor of Health Science, communication sciences and disorders major

The communication sciences and disorders major provides students with the foundation necessary for graduate study in audiology, speech-language pathology and other related fields. Courses are designed to develop students' understanding of the normal bases of speech, language and hearing; and to introduce basic concepts related to the disorders that affect human communication.

LANDING PAGE HERO

DETAILS

- Supports a title, summary and up to four call to action buttons
- Title supports up to 2 parts to match UF's brand border boxes
- Fills gap between homepage heroes and lead in opening paragraphs
- Works great with patterns and animations

NEW CUSTOMIZER OPTIONS

PATTERN KITS

PATTERN KIT

DETAILS

- Everyone is using our default kit (dots & crosshatches)
- We are adding 4 more kits with 2 patterns each
- We hope to add many more over time
- New controls for changing which texture is in the header

VISUAL ENHANCEMENTS

PAGE CONTENT

PAGE CONTENT

DETAILS

- Based on your input and feedback
- Wider layout for fitting more content on larger screens
- Better spacing between blocks
- Blocks will work better on all page templates

THAT'S ALL!

THANK YOU.
